

Customer Requirements Specification (CRS)

Al-Mujaddidun Charity & Development Association Website

Version: 1.0 Status: Draft

1. Introduction

This document defines the customer requirements for developing the official bilingual website (Arabic/English) for Al-Mujaddidun Charity & Development Association. The website will provide a modern public portal and a secure administration dashboard.

2. Organization Overview

The association is a Jordanian non-profit organization focused on humanitarian work, food assistance, housing support, community empowerment, and volunteer initiatives.

3. Business Objectives

- Establish an official online presence.
- Showcase projects and achievements.
- Publish news and events.
- Attract volunteers.
- Strengthen communication with the community.
- Highlight partners and supporters.
- Provide an easy-to-use administration dashboard.

4. Stakeholders

Stakeholder	Role
Board of Directors	Project Owner
Administrators	Manage Website
Content Editors	Publish Content
Visitors	Browse Information
Volunteers	Submit Applications
Partners	View Partnership Information

5. Project Scope

Public Website: Home, About Us, Board of Directors, Projects, News, Events, Success Stories, Partners, Gallery (Images & Videos), Reports, Volunteer, FAQ, Contact Us.

Administration Dashboard: Users, Roles & Permissions, Homepage, Projects, News, Events, Success Stories, Partners, Gallery, Reports, Volunteers, Contact Messages, Website Settings, Audit Logs.

Out of Scope (Version 1): Online payment gateway, Mobile application, AI Chatbot, SMS Notifications.

6. Business Requirements
